JOB REFERENCE: FULL STACK DEVELOPER INTERN

Dear Hiring Team,

I am writing to express my strong interest in the Full Stack Developer internship opportunity at Lambdaa Technologies. As a third-year software engineering student at the FET, I am eager to apply my current skills and gain real-world experience working on projects from ideation to deployment. I am excited about the prospect of joining a company where I can learn from industry professionals, contribute to meaningful projects, and become part of a supportive and collaborative team.

Currently, I am working at Staruth Tech, where I actively engage in developing client projects using the MERN stack. With a strong focus on frontend and design, I have developed proficiency in the MERN stack (MongoDB, Express.js, React, and Node.js). Through my coursework and personal projects, I have gained experience in developing responsive and user-friendly web applications. I am well-versed in leveraging modern frontend frameworks like React to create intuitive and visually appealing interfaces. Additionally, I have a solid understanding of backend technologies, including building efficient APIs and integrating databases.

I am seeking an internship where I can apply my current knowledge and skills while expanding my expertise under the guidance of experienced professionals. The opportunity to work on real-world projects, from concept to implementation, is particularly appealing to me as it will provide valuable hands-on experience and a deeper understanding of the development process.

Beyond technical skills, I am a dedicated and enthusiastic learner. I am eager to absorb knowledge from industry professionals and stay updated with the latest industry trends and best practices. I value collaboration and believe in fostering a supportive and inclusive work environment. I am confident that my skills, combined with my passion for learning and contributing to a team, will make me a valuable asset to Lambdaa Technologies.

Furthermore, I am eager to start the internship immediately upon the conclusion of this semester. I am excited about the opportunity to work with Lambdaa Technologies, as I believe it will not only provide me with valuable industry experience but also offer a sense of community and belonging. I am confident that by joining your company, I can contribute to its success while furthering my own professional development.

Thank you for considering my application. I have attached my CV for your review. I would welcome the opportunity to discuss in more detail how my skills and aspirations align with the goals of Lambdaa Technologies. I can be reached at takemjim43@gmail.com. I look forward to the possibility of joining your team and contributing to the exciting work at Lambdaa Technologies.

Sincerely,

Takem Jim-Rawlings
